

## HOW THE PROCESS WORKS

### THE PROCESS

Installing a MANIC Flash Tune is a two-step process and must be done by M7 Speed at our facility. Remote flashing is not available at this time.

1. The reading of unique codes from your ECU (15 minutes).
2. If the tune file is available in our database we upload it into your ECU the same day we receive it. 95% of all codes are in our database but not all are available. If the code needed is not in our database a delay of up to 10 days may be needed to develop the tune file.

**WE DO NOT DISASSEMBLE YOUR ECU OR MODIFY THE CIRCUIT BOARD IN ANY WAY. ALL REFLASHING IS PERFORMED THROUGH THE FACTORY CONNECTOR WITHOUT DISASSEMBLY.**

### METHOD 1

Ship your ECU to M7 Speed.

1. Purchase the Manic Tune or Tuner Kit you want on our website at: [www.m7tuning.com](http://www.m7tuning.com)
2. Download, fill out and sign these two documents;
  - a. [ECU RE-FLASH DISCLAIMER AND RELEASE OF LIABILITY CLICK HERE](#)
  - b. [PRE-TUNE QUESTIONNAIRE-CLICK HERE](#)
3. Remove your ECU from your car: [CLICK HERE FOR REMOVAL INSTRUCTIONS](#)
4. Pack and ship your ECU and the two required forms to:

**M7 Speed  
149 Byers Creek Rd.,  
Unit 103  
Mooresville, NC 28117**

- a. You pay for the shipping to M7 Speed. We pay for the standard ground return shipping. If you want expedited return shipping you can choose various options when you check out.
  - b. We recommend you insure the package. If it is lost or damaged in transit the cost to replace it could approach \$2000.
5. We complete the tune process and ship your ECU back to you.
  6. Normally the ECU is shipped back to you within one business day after receiving it at our shop.
  7. Reinstall the ECU in your car and HANG ON for the ride of your life!

### METHOD 2

1. Purchase your tune or Tuner Kit on our website.
2. Make an appointment (888-438-5767)
3. Drive your car to M7 Speed in Mooresville, NC
4. It takes approximately 2 hours to upload the tune file.
5. Hang-on for the ride home!

M7 Speed also installs everything we sell. Call for a quote if you want an Ultimate MINI Build by M7 Speed.
